**What we make visible, we can value. What we value, we can defend. And what we can defend, we have a much better chance of funding, restoring, and protecting for the future.**

benefits → evidence → justification → funding

# An initial indicator suite

A shared starting point for testing and improvement

**Value of this framework:**  
peatland's benefits become  
more visible,  
more credible,  
more investable.

**JNCC role:**  
convene + prototype + iterate

**The ask of you:**  
Help us make this better.
